RE: ATTN: FCC Docket 92-235

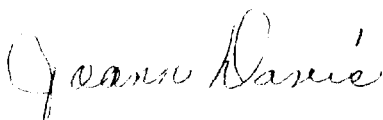

Dear Sirs,

In regards to FCC Docket 92-235, the new regulation limiting radio frequencies available and limiting power or range. This would greatly effect this county. The cost would be enormous for replacment of equipment.

The county I serve is a rural area, in district 2 alone has 250-300 miles of county maintained roadways. The ability to be able to reach road crews is a must. And when emergencies do arise we are able to react more quickly. Not only the cost would be great to a budget thats limited, but according to the National Association of County Engineers (NACE), the industry does not currently manufacture equipment capable of meeting the proposed regulations.

Your consideration would be appreciated.

Sincerely,

Joann Davis,  
Jefferson County Commissioner
